*TERMS AND CONDITIONS APPLY*

The Obalon Balloon System is intended for adults with a body mass index (BMI) of 30 to 40 kg/m² (30 to 100 pounds overweight) willing to follow a diet and exercise program. All Obalon balloons must be removed in 6 months. Patients with prior weight loss surgeries are not eligible. The most common side effects reported were mild abdominal pain and nausea which typically resolved within two weeks. You must take daily acid-blocking medicine prescribed by your doctor. For full Important Safety Information go to www.Obalon.com/safety-information or call your doctor.
OBALON WEIGHT LOSS CHALLENGE REBATE PROGRAM

TERMS AND CONDITIONS

The Obalon Year End 2018 Weight Loss Challenge is a rebate program that works by providing you (the patient) an instant rebate from your participating physician and additional potential mail-in rebates from Obalon.

- All qualifying, eligible patients will receive a $500 instant rebate, from eligible, participating physicians.
- Qualifying patients are eligible for an additional $500 mail-in rebate for weight loss ($1,000 total rebate from the cost of treatment) with weight loss of 25 pounds or more.
- Patients who bring a friend that also begins Obalon treatment in between September 1 and December 31 2018 will earn an additional rebate. Both you and your friend will receive a $500 mail-in rebate from Obalon after first balloon administration. You and your friend must begin treatment by December 31, 2018 and be entered in the Obalon Commercial Registry by your physician by January 15, 2019.
- You and your friend can combine your weight loss to help each other earn the weight loss rebate. If you and your friend lose 50 pounds or more combined, you will both be eligible for the $500 mail-in rebate for weight-loss (up to $1,500 total rebate from the cost of treatment). If the combined total weight loss is less than 50 pounds, each patient will be eligible as an individual for the $500 mail-in rebate for weight loss.
- The maximum rebate available is $1,500 for each qualifying patient and friend who both get treated by December 31, 2018. The maximum rebate for qualifying patients participating as an individual is $1,000.

To qualify for this offer, each patient must properly complete a redemption form (also available via Obalon’s authorized website at Obalon.com/rebate-form) and receive a coupon code. You must further agree to all stated disclosures and waivers, print the submission form and bring it into your treating physician for redemption. Obalon Balloons used in your treatment must be purchased legally in the U.S. and administered in accordance with a valid prescription by a licensed physician. For eligibility, initial balloon placement must occur between September 1 and December 31, 2018. Submission forms must be provided to your treating physician and the coupon code entered into the Obalon Commercial Registry (“Registry”) by your physician at the time of your initial balloon placement. Total weight lost will be determined, by your physician, at the time of final balloon removal (after full 3-balloon treatment and at least 140 days after first balloon placement) and entered, by your physician, into the Registry. Exceptions on the minimum treatment time or the number of balloons must be submitted by your physician to Obalon for review. Final balloon removal and entry into the Registry must occur within 195 days after initial balloon placement. Please allow 6-8 weeks after final balloon removal and Registry entry for processing. If you have questions about this offer, please call toll free 1-844-3OBALON (844-362-2566). No submissions will be considered after by January 15, 2019., 2018, and no rebates processed after July 15, 2019.

You must be 18 years of age or older to be eligible. Patient, pharmacist, and prescriber agree not to seek reimbursement for all or any part of the benefit received by the patient through the offer. You are eligible for this offer only if you paid for your entire treatment yourself and if no part of your treatment was covered by insurance or another third-party payor. You are not eligible for this offer if your private insurance, HMO, or other health benefit program paid for all or part of your treatment. If any form of reimbursement is sought from a third-party, you may be required to disclose the value of this rebate to that party or entity. This offer is available only to qualifying patients, excluding claims from Obalon employees and their spouses. This offer is non-transferable. No substitutions are permitted. No membership fees are associated with this offer. Offer valid only in the U.S., from participating physicians. Void where prohibited by law, taxed, or restricted. For a listing of participating physicians, visit Obalon.com.

This offer is limited to one redemption per person and cannot be combined with any other Obalon offer or promotion. No other purchase is necessary. This rebate is not insurance. By submitting a rebate request, you agree to all terms and conditions of this offer. Obalon reserves the right to cancel or modify this offer without notice. All rebate requests become the property of Obalon and will not be returned. Obalon assumes no responsibility for lost, late, damaged, misdirected, misaddressed or incomplete requests that fail to be properly delivered for any reason. Rebate checks will be issued in U.S. dollars only. Rebate checks are void if not cashed or used within 180 days. It is illegal to sell, purchase, trade, or counterfeit, or offer to sell, purchase, trade, or counterfeit the rebate check.

Indication and Important Safety Information:
The Obalon Balloon System (the “System”) is an FDA-approved, prescription-only treatment to facilitate weight loss. Individual weight loss results will vary. The System is a swallowable intragastric balloon system indicated for temporary use to facilitate weight loss in adults with obesity (BMI of 30 – 40 kg/m2) who have failed to lose weight through diet and exercise. The System is intended to be used as an adjunct to a moderate intensity diet and behavior modification program. All balloons must be removed in 6 months. Talk to your doctor if you have any questions about the System including any possible side effects. Patients with prior weight loss surgeries, inflammatory or other pathophysiological conditions of the GI tract are not eligible. The most common side effects reported were mild abdominal pain and nausea which typically resolved within two weeks. You must take daily acid-blocking medicine prescribed by your doctor. For full Important Safety Information click on Safety Information and Patient Labeling, available at Obalon.com/safety-information.
